10 165.76 (1) (am), (as), (av), (aw), (b), (bg), (br), (cr), and (g), (1m), (2m), (2r), (3), and

15 ***-0422/P4.9126*2.** The legislature finds that the state has a compelling
16 interest in the accurate identification of criminal offenders and that there is a critical
17 and urgent need to provide law enforcement officers and agencies with the latest
18 scientific technology available for accurately and expeditiously identifying,
19 apprehending, arresting, and convicting criminal offenders and exonerating
20 individuals wrongly suspected or accused of a crime. The legislature further finds
21 that deoxyribonucleic acid testing allows a more certain and rapid identification of
22 offenders as well as the exoneration of those wrongfully suspected or accused and
23 that deoxyribonucleic acid data banks are an important tool in criminal
24 investigations and in deterring and detecting recidivist acts. The legislature further
25 finds that deoxyribonucleic acid testing at the earliest stages of criminal and juvenile

1 proceedings will help prevent perpetrators from concealing their identities and will
2 prevent time-consuming and expensive investigations of innocent individuals. The
3 legislature further finds that the degree of intrusion on an individual's privacy
4 interests is minimized by the method of collection of the biological sample, by the
5 policy of using only deoxyribonucleic acid sequences not currently associated with
6 any known physical or medical characteristics in the creation of a deoxyribonucleic
7 acid profile, by the limited purposes for which a deoxyribonucleic acid profile may be
8 used under state and federal law, and by the availability of expungement for
9 individuals who are not charged with or convicted of the offenses for which the
10 deoxyribonucleic acid sample was collected.
